## SUMMARY

Computer Repair Technician with 6 years of volunteer experience and 2 years of work experience. Committed to efficiency in the workplace. Networking, software architecture, software debugging, and general IT customer support and care are among my talents.

## WORK EXPERIENCE

**06/2019 to 07/2021**

**PC Technician / General Technician**
**uBreakiFix** - Fredericksburg, VA
Repaired computers, phones, and other electronic devices:
- Repairing MacOS based computers/laptops (Snow Leopard 10.6 - Big Sur 10.16)
- Repairing Windows PCs/Laptops (Windows 95-11)
- Building custom computers for customers
- Repairing Apple, Samsung, and Google devices

Also provided general customer service management. Worked at POS systems to check in and diagnose devices. Helped with diagnoses over the phone and scheduling with devices to come in for repair. Designed internal tools to help increase productivity and reduce wasted company time.

**01/2018 to 08/2018**

**IT Consultant**
**Community Ministry Center** - Fredericksburg, VA
Assisted the under-resourced and novice computer users with job offers and resumes over the internet. Also set up the computer systems by:
- Assistance in purchasing computer equipment
- Cleaning systems from previous owners
- Maintaining security for the food pantry through software protection
- Wiring and managing the networking inside of the food pantry
- Creating a shared file system for storage of regular clientele's job information

Also acts as a general IT Consultant for PCs, Laptops and other devices held within the food pantry in case of failure of or assistance with said devices.

## EDUCATION

**Highschool Graduate in 2020**

**Riverbend High School** - Fredericksburg, VA
Took computer science classes, as well as communications classes, economics classes and college level math and science classes.

**College, Graduating in 2024**

**George Mason University** - Fairfax, VA
Current Junior, on track to get a Master's in Computer Science
GPA - 3.0
